

Chas. O. McCullough Dies From Stroke

HELD OFFICES OF TRUST, FORMER MAYOR.

Grayling people were immeasurably saddened by the passing of Charles O. McCullough, pioneer business man of this city, who passed away Saturday, July 25, at his home, following a severe stroke. He had been stricken at a very early hour and did not regain consciousness, passing away at 11:30 o'clock that same morning.

Charles O. McCullough was born at Waterford, Ontario, October 3, 1862, and came to Michigan with his parents when a boy of fourteen years.

His father was a shoemaker by trade and Mr. McCullough became interested in that work at a very early age. It was at the tender age of 12 years, that he first established himself in that business by constructing his first shoe. After that time he devoted his time to assisting his father in his shop, first in Canada, later in Bay City, and finally here in Grayling, where they set up a shop where the hotel Annex now stands. The lumber industry was at its height in those days and the two worked side by side turning out shoes and boots for the lumbermen in the camps and for village residents, as well as enjoying an excellent repairing business.

After he had become firmly established in the trade, his father built up a business of his own, dealing in agricultural implements, cream separators, gasoline engines, and buggies. Left to his own resources, Mr. McCullough continued the line business established by his father and also dealt in harnesses and horse furnishings. As a result of his excellent work his chosen vocation became a profitable one.

Since that time Mr. McCullough could always be found during business hours, working painstakingly at the cobbling trade right up until the time he was stricken.

Mr. McCullough took an active part in village affairs. In March, 1911, he was elected to the important office of President of the village, serving in this capacity faithfully and to the best of his ability. He was again placed in that office in 1931 and served for one year. He also served as Township Clerk and twice as Village Trustee, once in 1905 and again in 1934.

He has long been a member of the Independent Order of Odd Fellows, and an enthusiastic member of the Modern Woodmen of America.

He was united in marriage to Anna Cameron in 1887 and to this union four children were born, namely: Mary, deceased; William, Jean and Ruth.

Mr. McCullough has always stood high in the esteem of his neighbors and friends, and will always be remembered by them as a man of high ideals, a typical reminder of the type of man who

battled against great odds to make Grayling a village to be proud of. It is in this way that his family and friends will always remember him.

The deceased is survived, besides his widow, by three children, William, and Mrs. Spencer Holst, of Detroit, and Miss Jean, of New York, also one brother, George, of Grayling.

Funeral services were held Tuesday afternoon at 2:00 o'clock, at the home, Rev. Edgar Flory officiated and Mrs. C. G. Clippert, Mrs. H. J. Githro, and Mrs. Harold Jarman sang several beautiful hymns. Those who acted as pallbearers were: Nikolai Schlotz, O. W. Hans, Paul Ziebell, Axel Peterson, E. G. Clark, and Chris Johnson. Interment was in Elmwood cemetery.

Here from out of town to attend the services were: Miss Jean McCullough, New York; Mr. and Mrs. Spencer Holst, William McCullough and family, Detroit; Mr. and Mrs. R. B. Cameron, James A. Grant, Mrs. H. Higginbottom, Kenneth Cameron, of Detroit; Mr. and Mrs. P. J. McKim, of Wolverine; Wm. Murchison and Mrs. Binder, Lansing; Mr. and Mrs. John Vanderhoff, Kalamazoo; and Clarence Sisson and family, Gaylord.

K. & H. Co. Buy Mill, Timber Tract

TO MILL TIMBER AND SHIP TO GRAYLING

Last week announcement was made of the purchase of extensive timber holdings and mill at Big Bay, near Marquette, by K. & H. Co. of Chicago. The tract is estimated to have 30,000,000 feet of timber. This will be marketed at the mill in Big Bay.

The purchase was made from the Brunswick Lumber Co. at their offices in Chicago, on June 16th by officials of the local company, with John J. Walsh, an attorney at Marquette, representing the Brunswick company.

Immediately after the completion of the transactions of the purchase, Mr. Hill, accompanied by Albert Lewis, who is to have charge of timber operations, went to Big Bay to set up plans for the commencement of operations.

Immediately a crew of men went to work repairing and altering the mill, which is expected will require about eight to 10 weeks. Immediately after the mill is ready for operation, the five or 100 and 125 men will be put to work in the mill and in the woods.

The Big Bay mill will be the K. & H. company's chief source of supply for its large flooring plant in Grayling, and promises to give them, at least in years of supply of timber.

The timber holdings acquired by this transaction, one of the largest in Michigan, consists of three main tracts, each 8000 acres, for transportation of timber to the mill at the Big Bay.

Once again the woodsman's axe is going to ring out in Michigan, and Big Bay and Marquette business men as well as laborers are jubilant over the prospect of renewed prosperity for that region.

The officials of the K. & H. company are to be congratulated for their enterprise and progressiveness. Grayling too is to share in this prosperity by a direct contribution of the local extensive mill operations here at home. This is Grayling's largest and finest industry.

CAMP WETOMACHICK A BEE HIVE OF ACTIVITIES
On Saturday afternoon the Wetomachick Campfire girls and their counselors returned home after a week of strenuous and various activities.

Everyone of the twenty-seven girls completed a nature book which was one of the handicraft projects. In making this they did book binding, starch painting and Japanese sewing. Between the covers of the book are contained all the nature study material given to them by Miss O'Brien. The girls will find this material of great value in their future work in nature study.

Just the material on the stars is worth much as it has been compiled by Miss O'Brien after an extensive study of many books.

Several of the girls completed wall hangings on which they drew original symbols which express their ideals for themselves. The work in symbols will be applied in working out their headbands and in decorating their ceremonial gowns.

On Friday afternoon the campers packed blanket rolls over their backs and hiked to a beach near by. After a "cook-out" of corn chowder the girls then went to a high hill where they settled for an evening of star study and a night of rest. Jane Ann Martin, Mary Jane Joseph and Jane L. Dine won nature honors by being able to know and distinguish all the first magnitude stars in the sky that night.

Another camp achievement was the acquiring of a repertoire of camp songs which will be heard in the homes of Grayling for some time to come. They learned to do beautifully the motions to the Campfire song "Mammy Moon," which is to be sung at our Grand Council Fire in August.

One of the features of the week at camp was to write a "Camp Wetomachick" song. Mary Jane Joseph has the honor of writing the song adopted. It expressed well the sentiments of the girls for their camp.

Song of Camp Wetomachick
(Tune - "Tavern in the Town")
There is a camp on Lake Margrethe, Lake Margrethe;
There is a cottage and there we sleep, there we sleep.
And there we hike, swim and go boating too,
Oh, how it always grieves me when the time does come to leave the shore.

Oh Camp Wetomachick on Lake Margrethe shore,
Come on, come on, you girls to camp, yes to camp.
We'll study nature, yes and tramp, yes and tramp.
And then we'll take a swim and have a lot of fun;
So won't you come with us to camp.

Oh Camp Wetomachick on Lake Margrethe shore,
Come on, come on, you girls to camp, yes to camp.
We'll study nature, yes and tramp, yes and tramp.
And then we'll take a swim and have a lot of fun;
So won't you come with us to camp.

Oh Camp Wetomachick on Lake Margrethe shore,
Come on, come on, you girls to camp, yes to camp.
We'll study nature, yes and tramp, yes and tramp.
And then we'll take a swim and have a lot of fun;
So won't you come with us to camp.

Oh Camp Wetomachick on Lake Margrethe shore,
Come on, come on, you girls to camp, yes to camp.
We'll study nature, yes and tramp, yes and tramp.
And then we'll take a swim and have a lot of fun;
So won't you come with us to camp.

STREAMLINED GIANT HAULS REXALL TRAIN THROUGH THIS SECTION

When the million-dollar Rexall Convention Train comes to this section, it will be hauled by a 350-ton streamlined monster locomotive which is making railroading history. This engine is pulling the 12-car train the full 29,000 miles of its tour. Such a long haul without relief locomotives has never before been attempted, railroaders say. Conventions for Rexall and Liggett druggists are held aboard the train. At all stops the public is invited to inspect the engine and the four exhibit cars included in the train.

REXALL TRAIN TO SHOW IN SAGINAW AUG. 7

The Rexall Train, world's first convention train which will stop in this section during its event months journey, is creating tremendous interest among the people of the United States and Canada. In the first three months of the trip, more than 100,000 people have inspected the exhibits aboard the 12-car train, and its specially built 350-ton streamlined locomotive.

Conducted by the United Drug Company, the train is a floating drug store, a traveling school, a traveling museum, a traveling office, a traveling restaurant, a traveling hotel, a traveling bank, a traveling post office, a traveling newspaper, a traveling radio, a traveling television, a traveling telephone, a traveling mail, a traveling express, a traveling freight, a traveling passenger, a traveling everything.

Designed especially for the traveling drug store, the train is the first of its kind in the world. It is a floating drug store, a traveling school, a traveling museum, a traveling office, a traveling restaurant, a traveling hotel, a traveling bank, a traveling post office, a traveling newspaper, a traveling radio, a traveling television, a traveling telephone, a traveling mail, a traveling express, a traveling freight, a traveling passenger, a traveling everything.

Hauling the 12-car Rexall Train is a giant 350-ton streamlined locomotive, specially designed by the New York Central railroad. This engine is pulling the train on its 29,000-mile journey without relief, an unprecedented record in railroading. An engine force on the train is assigned to the train for the entire trip to supervise sectional engineers who run the train in the different parts of the country.

The train left Boston, Mass., March 29, making a few stops in the East. On the first leg of its trip, every state west of the Mississippi River was visited running up a mileage of more than 14,000 miles. The final 15,000-mile stage will take the train into states east of the river and into Canada, the long trip ending in late November at Atlanta, Ga.

The train will show in Saginaw August 7. Mr. McNamara of Mac & Gidley's says that free tickets may be had at their store.

MILES CALLAGHAN ANNOUNCES CANDIDACY FOR SENATE

Lansing, Mich., July 29.—Miles M. Callaghan, veteran member of the state house of representatives from the Clare-Oscoda district, announced today that he would be a candidate for the republican nomination for state senator from the 28th district. Callaghan's announcement followed closely the action of a large number of

MILES CALLAGHAN

friends, including Senator Ben Carpenter of Harrison, urging him to become a candidate. Carpenter will not be a candidate for reelection.

In making his announcement, Representative Callaghan said: "I am taking this action as a result of solicitation on the part of many republican representatives every county in the 28th district. These friends have circulated my petitions which have been filed with the secretary of state and which contain several hundred names of persons interested in my candidacy."

The 28th district is a large one, containing ten counties and extending almost two hundred miles from one boundary to another. It has a multitude of interests and problems, including public welfare, and many industries among which are agriculture, commercial fishing, manufacturing, resort business, and highway projects. Within recent years development on a large scale of the gas and oil reserves has added another major industry to the district.

"Because of eight years' experience in the house of representatives I have gained a wide knowledge of legislative affairs and feel confident that I can represent with success the 28th district with its varied interests."

"I am appreciative of the duties connected with the senatorial post and am fully prepared to meet and carry out these duties to the best of my ability and on a full-time basis."

"If nominated and elected, I expect to carry on an aggressive battle for the wide-spread interests of the 28th district and pledge my untiring efforts in support of intelligent and beneficial legislation."

Dedicate Kiwanis Forest Monument

A Kiwanis project representing ten years of effort devoted to the planting of pine in Michigan's north woods will be permanently memorialized August 2 at 2:30 p. m. with the dedication of the Kiwanis Forest Monument a half mile south of the Lumbermen's Memorial in the Huron National Forest.

Coming on a Sunday, the dedication ceremonies are expected to draw a large number of Kiwanis men and visitors who are concentrated in the forest area for the Fourth Annual "Fawcett" Water Carnival and Regatta.

Constructed of stone, each of which bears a plaque or inscription supplied by the various state Kiwanis Clubs which have been instrumental in reforesting the 10,000-acre monument is located fourteen miles from the Huron Forest headquarters at East Tawas. To the north stands its neighbor, the Lumbermen's Memorial, overlooking the broad waters of the AuSable River.

The Kiwanis Forest was designed to stimulate interest in reforestation and conservation. In 1926 it was conceived by Harry Black, Flint attorney, and R. G. Schreck, East Tawas, then supervisor of the Huron Forest. 500 persons attended the first planting of the pine and five thousand acres were planted out with the combined labor efforts of the forest and the Kiwanians at a cost of \$194 an acre, bringing the total plantation cost paid by the Kiwanians for the initial year to \$700. In 1929 the same plantation program was carried out at the same cost and on the same labor arrangement.

At the first dedication a lunch was served, relates T. F. Marston, secretary-manager of the East Michigan Tourist Association, admission to which was by a stone, the thought behind the gesture being the present memorial.

At each of the two dedication ceremonies, a member of the United States Forestry Staff officiated and each person present planted a small tree along the highway.

Kiwanian Harry Black is honored with a special stone block in the monument which is nine feet high and five by six feet at the base.

At Governor Ralph M. Hunter will be master of ceremonies at the dedication. The memorial will be unveiled by Harry Black.

Principal speakers on the program are Governor Vern Chase and E. A. Sherman, Assistant Chief United States Forestry Service, Washington.

Joe Dermody, former publicity director of the East Michigan Tourist Association, is honored on the E. M. T. A. stone.

The United States Forest Service is honored with a stone at the very top of the monument.

WOMEN AND FISH

Ever since the world began, women seemed to have a grudge against fish. How anyone, including their husbands, can be interested in such slimy, ugly creatures is beyond the comprehension of most women. When a man goes fishing and returns with a string of fish most women will take one look at them (not the husbands) and turn their heads in disgust, unless it means supper. Many women wonder what it is about a fish that attracts their husbands. A fish certainly hasn't much sex appeal even though some have big, brown eyes, and many a wife actually becomes jealous of a fish. Why must they sit home while their husband spends five dollars for a guide and stays out late trying to catch a measly fish or two?

Families have actually been broken up by the influence that fishing has over a man, but as long as fish remain in the lakes and streams, men will attempt to catch them and nothing in the world can stop them.

I Crossed the Continent on a Cupful o' RED CROWN!

Kermit the Frog

"It's something of a hobby with me—crossing the continent. But, old experienced continent-crosser that I am, do I have my eyes opened this Spring? I do! 'Always before, I make the trip by foot, figuring I'm money ahead if other folks buy the gasoline. This time, though, I get reckless. I decide to forget expense and go in my own car. 'But, Kermit,' I say to myself, 'don't go completely nuts all at once. Take it easy and gradual,' I say. 'That's sensible, so I start it off with just one tea-cupful of gasoline in the tank. And right there is where I get my eye-opener. It happens to be Red Crown gasoline that I buy. And do I have to make another single stop for gas the whole way across? I do not! That one cupful takes me coast to coast, and I even have trouble stopping the car when I get to the Golden Gate!'

We don't believe Kermit could really have been serious about this matter. In fact, we don't believe there is any such person.

It is a fact, though, that many motorists do have false or exaggerated ideas about gasoline mileage. That's why Standard Oil is conducting a great public road test this summer, in which thousands of motorists are taking part.

Reports already indicate that many are learning valuable new facts about the economical operation of their cars—discovering how to use gasoline more efficiently—finding out which brand of motor fuel does the best and cheapest job for them. Even if you aren't entered in the World's Greatest Road Test, it will pay you to

LEARN THE TRUTH ABOUT GASOLINE MILEAGE

BE SURE YOUR CAR IS SAFE TO DRIVE—THEN DRIVE SAFELY!

HAVE YOUR STANDARD DEALER FILL YOUR TANK WITH STANDARD RED CROWN. Then note carefully how many miles you drive before you need gasoline again. Compare that mileage with any you've ever gotten before.

We know from our own tests that Standard Red Crown is good for fully as long a mileage as any regular priced gasoline on the market. But rather than make claims, we prefer to let Standard Red Crown speak for itself.

BE SURE YOUR CAR IS SAFE TO DRIVE—THEN DRIVE SAFELY!
